

Spotlight on Horticulture

As part of our horticulture program, garden club members are encouraged to bring plant material from their gardens and homes to be displayed at the meeting on the first Monday of each month. This is an opportunity for members to share the results of their gardening, while other members of the garden club can appreciate and learn from these displays. This is a time to share foliage, flowers, fruits, vegetables or dry plant materials that you have grown and nurtured. In addition, participants earn points toward winning the President's Award (see below).

September 13

Garden Harvest

October 4

Creation using Apples, Cabbage, Corn or Squash

November 1

Monochromatic Arrangement

February 7

Arrangement using Fruit and Vegetables

March 7

Moss Arrangement

April 4

Shrub Identification Quiz

PRESIDENT'S AWARD

The President's Award

This trophy, donated by Barbara Ullstein, is presented annually to an Essex Garden Club member. The Award's purpose is to promote interest and participation in horticulture and education.

Points will be accumulated by:

1. Participation in educational field trips
2. Participation in workshops
3. Participation in monthly spotlights (member is to provide botanical and common names)
4. Participation in any flower show (member is to provide botanical and common names)
